

BLEND 

Balance

FOR PH BALANCE

NET CONTENT: 5 GALLON (18.92 L)
NET WT: 44.19 LBS (20.04 KG)

 ATHENA®

Balance

BLEND^{ED}

KEEP OUT OF REACH OF CHILDREN AND ANIMALS

DENSITY: 8.83 lbs/gal

APPLICATION INSTRUCTIONS

Athena® **Balance** is designed to increase the pH of nutrient solution. Recommended for use with batch tank mixing and Dosatron. Do not use with Netaflex (or other electronic dosers). Mix at 2-10 mL per gallon (5 - 26 mL per 10 L) of water to increase pH as needed. The recommended pH is typically 5.5 to 6.5.

BEST PRACTICES

Agitate before mixing and dosing to ensure homogeneous solution. Compatible with other fertilizers and crop protection products. Add first to reverse osmosis (RO) water to help buffer for better solution stability.

STORAGE

Store closed in original packaging in a cool, dark place, at a temperature between 45° F and 85° F (7° C and 29° C). Should not be exposed to prolonged periods of direct sunlight. Two year shelf-life from manufacturer date if stored properly.

ALSO RECOMMENDED

BLEND^{ED}

Cleanse
Removes mineral buildup (scale) in growing media and irrigation lines.

PRO

Pro Core
Provides strong baseline nutrition across all stages of plant growth.

PRO

Pro Grow
Soluble fertilizer blend to support the vegetative phase of growth.

PRO

Pro Bloom
Soluble fertilizer blend to support the flowering phase of growth.
