SECTION 2. HAZARDS IDENTIFICATION

Classification of the chemical

Amber liquid. Sweet odour.

Most important hazards: Causes serious eye damage.For further information, please refer to section 11 of the SDS.

This material is classified as hazardous under U.S. OSHA regulations (29CFR 1910.1200) (Hazcom 2012) and Canadian WHMIS regulations (Hazardous Products Regulations) (WHMIS 2015).

Hazard classification:

Serious eye damage/eye irritation - Category 1

Label elements

Hazard pictogram(s)

DANGER! Hazard statement(s)

Causes serious eye damage.

Precautionary statement(s)

Wear eye/face protection. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor/physician.

Page 1 of 11

SDS Preparation Date (mm/dd/yyyy): 11/04/2022

Page 2 of 11

SAFETY DATA SHEET

Other hazards

Other hazards which do not result in classification: Direct skin contact may cause slight or mild, transient irritation. Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea.

Ecological information:

Not expected to be harmful to aquatic organisms. Avoid release to the environment. See Section 12 for more environmental information.

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Mixture.

Chemical name	Common name and synonyms	<u>CAS #</u>	Concentration (% by weight)
Nitric acid, ammonium calcium salt	Calcium nitrate	15245-12-2	5.0 - 10.0
Calcium chloride	Calcium chloride dihydrate	10043-52-4	1.0 - 5.0

The exact concentrations of the above listed chemicals are being withheld as a trade secret.

SECTION 4. FIRST-AID MEASURES

Description of first aid measures

Ingestion Inhalation		Rinse mouth thoroughly. Do NOT induce vomiting. Never give anything by mouth to an unconscious person. If vomiting occurs spontaneously, keep victim's head lowered (forward) to reduce the risk of aspiration. Get medical attention immediately. Harmful effects are not expected under normal usage. If breathing has stopped, give artificial respiration. If breathing is difficult, give oxygen by qualified medical personnel
Skin contact	:	only. Wash off with soap and plenty of water. Remove and wash contaminated clothing before re-use. Get medical attention if irritation develops and persists.
Eye contact	:	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.Immediately call a POISON CENTER or doctor/physician.
Most important symptoms an	nd	effects, both acute and delayed
	:	Causes serious eye damage. Symptoms may include a burning sensation, pain, watering, and/or changes in vision (blurred vision). Permanent eye damage including blindness could result.
		Direct skin contact may cause slight or mild, transient irritation. Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea.
Indication of any immediate r	me	dical attention and special treatment needed
	:	Provide general supportive measures and treat symptomatically.Symptoms may be delayed.

SECTION 5. FIRE-FIGHTING MEASURES

Extinguishing media

Suitable extinguishing media

: Water spray, fog (flooding amounts).

Unsuitable extinguishing media

- : Do not use a solid water stream as it may scatter and spread the fire.
- Do not use carbon dioxide or other smothering agents, as they may be ineffective.

Special hazards arising from the substance or mixture / Conditions of flammability

: Not considered flammable. Toxic fumes, gases or vapours may evolve on burning. May decompose to form toxic/corrosive gasses if exposed to high heat. Closed containers may rupture if exposed to excess heat or flame due to a build-up of internal pressure.

SDS Preparation Date (mm/dd/yyyy): 11/04/2022

Page 3 of 11

SAFETY DATA SHEET

Flammability classification (OSHA 29 CFR 1910.106)

: Not flammable.

Hazardous combustion products

: Nitrogen oxides (NOx); Calcium oxides; Ammonia; and other irritating fumes and smoke.

Special protective equipment and precautions for firefighters

Protective equipment for fire-fighters

: Do not enter without wearing specialized protective equipment suitable for the situation. Firefighter's normal protective clothing (Bunker Gear) will not provide adequate protection. A full-body encapsulating chemical protective suit with positive pressure self-contained breathing apparatus (NIOSH approved or equivalent) may be necessary.

Special fire-fighting procedures

: Move containers from fire area if safe to do so. Contaminated surfaces may be slippery. Cool closed containers exposed to fire with water spray. Do not allow run-off from fire fighting to enter drains or water courses. Dike for water control.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

SECTION 7. HANDLING A	N	O STORAGE
		In Canada: Contact appropriate local and provincial environmental authorities for assistance and/or reporting requirements.
		EPA/CERCLA Reportable quantity (RQ): See section 15.
	:	If a spill/release in excess of the EPA reportable quantity is made into the environment, immediately notify the National Response Center in the United States (phone: 1-800-424-8802).
Special spill response proce	du	res
	:	Ventilate the area. Remove all sources of ignition. Prevent further leakage or spillage if safe to do so. Do not touch or walk through spilled material. Material can create slippery conditions. Contain and absorb spilled liquid with non-combustible, inert absorbent material (e.g. sand). Place in clean, dry and labeled containers.Clean surface thoroughly to remove residual contamination. After cleaning, flush away traces with water. Do not flush into surface water or sanitary sewer system. Refer to Section 13 for disposal of contaminated material. Contact the proper local authorities.
Methods and material for con	nta	inment and cleaning up
Environmental precautions	:	clean-up should wear the appropriate protective equipment including self-contained breathing apparatus. Refer to protective measures listed in sections 7 and 8. Do not allow material to contaminate ground water system. Prevent product from entering drains, sewers, waterways and soil.
	:	Restrict access to area until completion of clean-up. Keep people away from and upwind of spill/leak. Contaminated surfaces may be slippery. All persons dealing with

Precautions for safe handling

: Keep container tightly closed when not in use. Wear appropriate protective equipment. Material can create slippery conditions. Avoid contact with skin, eyes and clothing. Do not eat, drink or smoke when using this product. Do not ingest. Wash thoroughly after handling. Keep away from incompatibles. Keep away from extreme heat and flame. Empty containers retain residue and can be dangerous.

SDS Preparation Date (mm/dd/yyyy): 11/04/2022

Page 4 of 11

SAFETY DATA SHEET

Conditions for safe storage	:	Store in a cool, dry, well ventilated area. Store away from incompatible materials. Keep away from heat and sources of ignition. Keep away from direct sunlight. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Do not store in open or unlabelled containers. Storage area should be clearly identified, clear of obstruction and accessible only to trained and authorized personnel. No smoking. Inspect periodically for damage or leaks. Have appropriate fire extinguishers and spill clean-up equipment in or near storage area.
Incompatible materials	:	Acids; Bases; Reducing agents.

SECTION 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure Limits:				
Chemical Name	ACGI	H TLV	<u>OSHA</u>	PEL
	TWA	<u>STEL</u>	PEL	STEL
Nitric acid, ammonium calcium salt	N/Av	N/Av	N/Av	N/Av
Calcium chloride	N/Av	N/Av	N/Av	N/Av

Exposure controls

Ventilation and engineering measures

· · · · · · · · · · · · · · · · · · ·		
		Use only in well-ventilated areas. Apply technical measures to comply with the occupational exposure limits. Where reasonably practicable this should be achieved by the use of local exhaust ventilation and good general extraction. In case of insufficient ventilation wear suitable respiratory equipment.
Respiratory protection	:	If airbourne concentrations are above the permissible exposure limit or are not known, use NIOSH-approved respirators.Use a NIOSH approved dust respirator if dust levels exceed exposure limits. Respirators should be selected based on the form and concentration of contaminants in air, and in accordance with OSHA (29 CFR 1910.134) or CSA Z94.4-02.Advice should be sought from respiratory protection specialists.
Skin protection	:	Wear protective gloves. The suitability for a specific workplace should be discussed with the producers of the protective gloves. Depending on conditions of use, safety shoes and additional protective clothing may also be necessary.
Eye / face protection	:	Wear eye/face protection. Chemical goggles are recommended when there is a potential for splashing.
Other protective equipment	:	Emergency showers and eyewash facilities should be nearby. Other equipment may be required depending on workplace standards.
General hygiene consideration	ons	
	:	Avoid contact with skin, eyes and clothing. Do not eat, drink or smoke when using this product. Wash hands thoroughly after using this product, and before eating, drinking or smoking. Remove and wash contaminated clothing before re-use. Handle in accordance with good industrial hygiene and safety practice.

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance	:	Amber liquid.		
Odour	:	Sweet odour.		
Odour threshold	:	Not available.		
рН	:	3.2-4.2		
Melting Point/Freezing point	:	~1 °C (30.2°F)		
Initial boiling point and boiling range				

: Not available.

SAFETY DATA SHEET

Potential Health Effects:

Signs and symptoms of short-term (acute) exposure

Sign and symptoms Inhalatio	n	
	:	Harmful effects are not expected under normal usage.
Sign and symptoms ingestior	n	
	:	Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea.
Sign and symptoms skin	:	Direct skin contact may cause slight or mild, transient irritation.
Sign and symptoms eyes	:	Causes serious eye damage. Symptoms may include a burning sensation, pain, watering, and/or changes in vision (blurred vision). Permanent eye damage including blindness could result.
Potential Chronic Health Effe	ct	-
	:	Contains material which may cause adverse blood system effects.
Mutagenicity	:	Not expected to be mutagenic in humans.
Carcinogenicity	:	No component of this product present at levels greater than, or equal to, 0.1% is identified as a carcinogen or potential carcinogen by ACGIH, IARC, OSHA, or NTP.
Reproductive effects & Terate	bg	enicity
	:	Not expected to cause reproductive effects.
Sensitization to material	:	Not expected to be a skin or respiratory sensitizer.
Specific target organ effects	:	Not classified as a specific target organ toxicity-single exposure. Not classified as specific target organ toxicity-repeated exposure.
Medical conditions aggravate	ed	by overexposure
	:	Pre-existing skin, eye and respiratory disorders.
Synergistic materials	:	No information available.
Toxicological data	:	There is no available data for the product itself, only for the ingredients. See below for individual ingredient acute toxicity data. The calculated ATE values for this mixture are: ATE oral = 3712.87 mg/kg

	LC50(4hr)	LD50		
Chemical name	<u>inh, rat</u>	(Oral, rat)	<u>(Rabbit, dermal)</u>	
Nitric acid, ammonium calcium salt	N/Av	>300 - <2000 mg/kg	>2000 mg/kg (rat) (No mortality)	
Calcium chloride	N/Av	3798 mg/kg	>5000 mg/kg	

Other important toxicological hazards

: None reported by the manufacturer.

SECTION 12. ECOLOGICAL INFORMATION

Ecotoxicity

: Not expected to be harmful to aquatic organisms. The product should not be allowed to enter drains or water courses, or be deposited where it can affect ground or surface waters. See the following tables for the substance's ecotoxicity data.

Athena CaMg SDS Preparation Date (mm/dd/yyyy): 11/04/2022

Page 7 of 11

SAFETY DATA SHEET

Ecotoxicity data:

la suo die néo	040#	Toxicity to Fish				
<u>Ingredients</u>	CAS #	LC50 / 96h	NOEC / 21 day	M Factor		
Nitric acid, ammonium calcium salt	15245-12-2	>100 mg/L Rainbow trout Read-across (Analogy)	157 mg/L (32 days) (Read-across)	None.		
Calcium chloride	10043-52-4	4630 mg/L (Fathead minnow)	N/Av	None.		

Ingredients	ngredients CAS #		Toxicity to Daphnia				
		EC50 / 48h	NOEC / 21 day	M Factor			
Nitric acid, ammonium calcium salt	15245-12-2	>100 mg/L Daphnia magna (Water flea)	N/Av	None.			
Calcium chloride	10043-52-4	1062 mg/L Water flea	610 mg/L Water flea	None.			

Ingredients	Ingredients CAS #		Toxicity to Algae				
		EC50 / 96h or 72h	NOEC / 96h or 72h	M Factor			
Nitric acid, ammonium calcium salt	15245-12-2	>100 mg/L/72hr Green algae	100 mg/L/72hr	None.			
Calcium chloride	10043-52-4	1000 mg/L/72hr (Green algae)	N/Av	None.			

Persistence and degradability

: No data is available on the product itself.

Bioaccumulation potential

Not expected to bioaccumulate. : See the following data for ingredient information.

<u>Components</u>	Partition coefficient n-octanol/water (log Kow)	Bioconcentration factor (BCF)
Nitric acid, ammonium calcium salt (CAS 15245-12-2)	N/Ap	Not expected to bioaccumula
Calcium chloride (CAS 10043-52-4)	0.6	no bioaccumulation

: There is no data available for this product. Mobility in soil

Other Adverse Environmental effects

: No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

SECTION 13. DISPOSAL CONSIDERATIONS

Handling for Disposal	: Handle in accordance with good industrial hygiene and safety practice. Since emptied containers may retain product residue, follow label warnings even after container is emptied. Refer to protective measures listed in sections 7 and 8.
Methods of Disposal	: Dispose in accordance with all applicable federal, state, provincial and local regulations.

SDS Preparation Date (mm/dd/yyyy): 11/04/2022

SAFETY DATA SHEET

RCRA

: If this product, as supplied, becomes a waste in the United States, it may meet the criteria of a hazardous waste as defined under RCRA, Title 40 CFR 261. It is the responsibility of the waste generator to determine the proper waste identification and disposal method. For disposal of unused or waste material, check with local, state and federal environmental agencies.

SECTION 14. TRANSPORT INFORMATION

Regulatory Information	UN Number	UN proper shipping name	Transport hazard class(es)	Packing Group	Label
49CFR/DOT	None.	Not regulated.	not regulated	none	\oslash
49CFR/DOT Additional information	None.	1			
TDG	None.	Not regulated.	not regulated	none	\bigotimes
TDG Additional information	None.	<u> </u>			
ICAO/IATA	None.	Not regulated.	not regulated	none	\bigotimes

IMDG	None.	Not regulated.	not regulated	none	\bigotimes
IMDG Additional information	None.	1	!	<u> </u>	

12.

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

: This information is not available.

SECTION 15 - REGULATORY INFORMATION

US Federal Information:

Components listed below are present on the following U.S. Federal chemical lists:

SDS Preparation Date (mm/dd/yyyy): 11/04/2022

Page 9 of 11

SAFETY DATA SHEET

Ingredients CAS	CAS #		CERCLA Reportable	SARA TITLE III: Sec. 302, Extremely	SARA TITLE III: Sec. 313, 40 CFR 372, Specific Toxic Chemical		
	CAS #	Inventory	Quantity(RQ) (40 CFR 117.302):	Hazardous Substance, 40 CFR 355:	Toxic Chemical	de minimus Concentration	
Nitric acid, ammonium calcium salt	15245-12-2	Yes	N/Ap	N/Ap	No	N/Ap	
Calcium chloride	10043-52-4	Yes	N/Ap	N/Av	No	N/Ap	

SARA TITLE III: Sec. 311 and 312, SDS Requirements, 40 CFR 370 Hazard Classes: Eye Damage.

US State Right to Know Laws:

The following chemicals are specifically listed by individual States:

Ingredients	CAS #	California Proposition 65		State "Right to Know" Lists					
<u></u>		Listed	Type of Toxicity	CA	MA	MN	NJ	PA	RI
Nitric acid, ammonium calcium salt	15245-12-2	No	N/Ap	No	No	No	No	No	No
Calcium chloride	10043-52-4	No	N/Ap	No	No	No	No	No	No

Canadian Information:

Canadian Environmental Protection Act (CEPA) information: All ingredients listed appear on the Domestic Substances List (DSL).

International Information:

Components listed below are present on the following International Inventory list:

Ingredients	CAS #	European EINECs	Australia AICS	Philippines PICCS	Japan ENCS	Korea KECI/KECL	China IECSC	NewZealand IOC
Nitric acid, ammonium calcium salt	15245-12-2	239-289-5	Not listed	Not listed	Not listed	KE-25913	Not listed	May be used as a component in a product covered by a group standard, but is not approved for use as a chemical in its own right.
