FERTILIZER

WHAT IS BIO-BLOOM™?

Hoping for exuberant flowers that lead to tasty fruits? Then this complete liquid organic fertilizer, as its name suggests, is what you need. It contains the optimum blend of nitrogen, phosphorous and potassium, along with enzymes and amino acids – all working together in perfect harmony with the soil. Trace elements and hormones of vegetable origin have also been added to help create a strong-stemmed and vigorous flowering plant.

The nutrients in Bio•Bloom™

Potassium and phosphorus help the buds, calyces and petals to form and grow. Potassium especially, works with the natural rhythm of the plant throughout the day and night which helps trigger the flowering process.
